CONFIRMATION - GLYCOL

Dear sirs,

We herewith confirm the resistance of our POLO-POLMYUTAN ML5 / POLO-ECOSAN ML5 pipes against Water-Glycol mixtures at a temperature until -10°C about max. 50 years.
The pipe has to be protected from all kind of outside impacts. Any hit from outside could cause hairline cracks. Cracks caused by low temperature hairline cracks are not included in our warranty.

If you have any further request please don't hesitate to contact us.

Best regards

i.A. Alexander Heinle
